

Series 400 Soft Seal Shelter

Chalfant Series 400 Soft Seal Shelter provides a effective seal between your building and truck at your loading dock. Designed with the common variety of trucks in mind.

Standard Construction Features Summary

- The Series 400 Soft Seal Shelter provides tight seal against truck and prevent weather, dust, bugs, exhaust fumes from entering building.
- High resilient premium grade polyurthane foam, bonded with high quality liquid adhesive to kiln dried wood, all are encased inside the dock seal fabric cover to protect it from abuse and the elements (optional 14 gauge galvanized steel backing also available).
- All pads are equipped with air vents to help minimize rupture, and drain holes equipped with brass grommet type drain holes to reduce moisture build-up.
- Raked head frame with curtain that services a wide variety of trucks with a standard curtain height of 36".
- Wide variety of tested high quality fabrics available.
- One (1) year Guarantee against manufacturing defects in material & workmanship from date of installation. *(see warranty)

3-in-1 Guardian Dor-Seal System Options

- Foam backing - Conforms to building wall irregularities.
- Extra wood substructure - Strong, secure connections for installations.

- Full "Z" pattern top of side curtain 3-Ply-reinforcement bottom

Shown with optional full length guide stripe and door number

The Series 400 Soft Seal Shelter features a unique design that acts like a shelter and dock seal combined. The Series 400 Soft Seal Shelter provides foam side pads and dock shelter style curtain, that allows full access to the rear of the trailer and yields under off-center trucks impact, due to improper positioning at the loading dock.

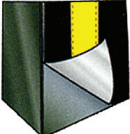

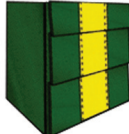

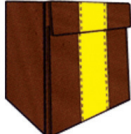

Chalfant has pioneered, developed and provided the industry with quality loading dock equipment since 1940. Safe, affordable, reliable dock equipment, to meet your application needs.
